| GaviLyte-G | |

Information about the appeals and grievance process for these prescription drugs and supplies can be found in your Evidence of Coverage.

Lower-cost non-Medicare prescription drugs

The following drugs have a \$0 copay.

| |
|-------------------------|
| Vitamins |
| Folic Acid (1mg Tablet) |

The amount you pay for these additional preventive drugs **does not apply to your Medicare Part D out-of-pocket costs.** Payments made for these drugs (made by you or the plan) are treated differently from payments made for the drugs in your plan's Drug List (Formulary). This non-Medicare drug coverage is in addition to your Medicare drug coverage. Unlike your Medicare drug coverage, the Medicare appeal or grievance processes do not apply to these drugs.

Bonus drug list

| Promethazine/Codeine (Syrup) | 1 | DL |
| Promethazine/Dextromethorphan (Syrup) | 1 | |

Bold type = Brand name drug Plain type = Generic drug

Covered drugs are placed in tiers. Each tier may have a different cost. See the Summary of Benefits to find out what you'll pay for these drugs.

Although you pay the same copay for these drugs as shown in the Summary of Benefits and Evidence of Coverage, the amount you pay for these additional prescription drugs **does not apply to your Medicare Part D out-of-pocket costs**. Payments for these additional prescription drugs (made by you or the plan) are treated differently from payments made for other prescription drugs.

Coverage for the prescription drugs on the bonus drug list is in addition to your Medicare prescription drug coverage under the plan. Unlike your Medicare prescription drug coverage under the plan, you are unable to file a Medicare appeal or grievance for drugs on the bonus drug list.

If you get Extra Help from Medicare to pay for your prescription drugs, it will not apply to the drugs on this bonus drug list.

If your drug has any coverage rules or limits, there will be code(s) in the "Coverage rules or limits on use" column of the chart. The codes and what they mean are shown below.

QL - Quantity limits

The plan will only cover a certain amount of this drug for one copay or over a certain number of days. These limits can help ensure safe and effective use of the drug.

MME - Morphine Milligram Equivalent

Additional quantity limits may apply to all opioid drugs used to treat pain. This additional limit is called a cumulative Morphine Milligram Equivalent (MME). It's designed to monitor safe dosing levels of opioids for people who may be taking more than one opioid drug for pain management. If your doctor or prescriber prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor or prescriber can ask the plan to cover the additional quantity.

7D - 7-day limit

An opioid drug used to treat pain may be limited to a 7-day supply if you don't have a recent history of using opioids. This limit helps minimize long-term opioid use. If you are new to the plan and have a recent history of using opioids, the pharmacy may override the limit when appropriate.

DL - Dispensing limit

Dispensing limits apply to this drug. This drug is limited to a one-month supply per prescription.

This information is not a complete description of benefits. Contact the plan for more information.

Limitations, copay, and restrictions may apply.

Benefits and/or copay/coinsurance may change each plan/benefit year.

The Drug List may change at any time. You will receive notice when necessary.
