## **Plan Details**

## IBM-sponsored Group Medicare Advantage plan options

The IBM retiree medical plan for Medicare-eligible participants offers two custom Group Medicare Advantage plan options insured by UnitedHealthcare® for health care and prescription drug coverage, an Enhanced Plan and an Essential Plan. Only Medicare-eligible plan participants can enroll in these plans.

These Group Medicare Advantage plan options combine the features of individual Medicare Supplement, Medicare Part D prescription drug (PDP) and Medicare Advantage plans to provide national provider access, prescription drug coverage, and may provide lower monthly premiums and out-of-pocket costs. As an IBM-sponsored Group Medicare Advantage plan member, you'll have a team committed to understanding your medical needs and helping you get the right care.

"Medicare Advantage" is also known as Medicare Part C, and includes prescription drugs. These plans have all the benefits of Medicare Part A (hospital coverage) and Medicare Part B (doctor and outpatient care) plus extra programs that go beyond Original Medicare (Medicare Parts A and B).

## Make sure you know what parts of Medicare you have

You must be enrolled in Medicare Parts A and B to enroll in this plan.

- If you're not sure if you are enrolled in Medicare Part B, check with Social Security
- Visit ssa.gov/locator or call 1-800-772-1213, TTY 1-800-325-0778, 8 a.m.-7 p.m., Monday-Friday, or call your local office
- You must continue paying your Medicare Part B premium to be eligible for coverage under this group-sponsored plan
- If you stop paying your Medicare Part B premium, you may be disenrolled from this plan

## **How your Group Medicare Advantage plan works**

Medicare has rules about what types of coverage you can add or combine with a group-sponsored Medicare Advantage plan.

## One plan at a time

- You may be enrolled in only one Medicare Advantage plan and one Medicare Part D
  prescription drug plan at a time. The IBM-sponsored Group Medicare Advantage plan
  options include both coverages.
- The plan you enroll in last is the plan that the Centers for Medicare & Medicaid Services (CMS) considers to be your final decision
- If you or an eligible family member enroll in another Medicare Advantage plan or a standalone Medicare Part D prescription drug plan after your enrollment in one of the IBM-sponsored Group Medicare Advantage plan options, you will be disenrolled from your IBM plan option
- If you're currently enrolled in a Medicare Supplement plan and new to Medicare
  Advantage, you can try one of the IBM-sponsored Group Medicare Advantage plan
  options for up to one year and still have the option to go back to your former Medicare
  Supplement plan and carrier on a guaranteed issue basis<sup>1</sup>

**Remember:** The IBM subsidy is only available when you enroll in one of the new IBM-sponsored Group Medicare Advantage plan options. Exceptions apply if you are enrolled in Medicaid, TRICARE, VA Benefits, those living abroad or if you have transitioned from the pre-65 retiree medical plan as a Kaiser participant and intend to remain enrolled in a Kaiser Permanente Medicare plan option.

You have access to UnitedHealthcare's nationwide coverage. You can see any provider (in-network or out-of-network) at the same cost share as long as they accept the plan and have not opted out of or been excluded or precluded from the Medicare Program.

## **View Your Plan Information Online**

Once you receive your UnitedHealthcare member ID card, you can create your secure online account at: **retiree.uhc.com/ibm** 

You'll be able to view plan documents, find a provider, locate a pharmacy and access lifestyle and learning articles, recipes, educational videos and more.

<sup>&</sup>lt;sup>1</sup>If an out-of-network provider participates in Medicare and accepts the plan, this means that the provider or hospital agrees to treat you and be paid according to UnitedHealthcare's payment schedule. With this plan, we pay the same as Medicare and follow Medicare's rules. Emergencies would be covered even if out-of-network.

<sup>&</sup>lt;sup>2</sup>Refer to the Summary of Benefits or Benefit Highlights in this guide for more information.

## How your prescription drug coverage works

Your Medicare Part D prescription drug coverage includes thousands of brand name and generic prescription drugs. Check your plan's drug list to see if your drugs are covered.

## Here are answers to common questions:

#### What pharmacies can I use?

You can choose from thousands of national chain, regional and independent local retail pharmacies. In addition, you also have access to preferred mail order vendor, Optum Rx Home Delivery.

#### What is a drug-cost tier?

Drugs are divided into different cost levels, or tiers. In general, the lower the tier, the less you pay.

#### What will I pay for my prescription drugs?

What you pay will depend on the coverage IBM has arranged and on what drug-cost tier your prescription falls into. Your cost may also change during the year based on the total cost of the prescriptions you have filled.<sup>1</sup>

#### Can I have more than one prescription drug plan?

No. You can only have one Medicare plan that includes prescription drug coverage at a time. If you enroll in another Medicare Part D prescription drug plan OR a Medicare Advantage plan that includes prescription drug coverage, you will be disenrolled from another IBM plan option.

#### How do I request refills through my local pharmacy?

There are no changes in the refill process for when you use your local retail pharmacy. However, you will need to make sure your local pharmacy has your new member ID card information when processing your refill prescriptions after your effective date.

#### How do I transfer my prescriptions to Optum Rx Home Delivery?

Optum Rx may be able to transfer your open refillable prescriptions from your current pharmacy without obtaining a new prescription. You can also ask your doctor to send an electronic prescription to Optum Rx.

#### Can I use Optum Rx Home Delivery for any medication?

Most medications are available through home delivery.<sup>2</sup> You can find out which of your prescriptions can be filled through home delivery by going online or using the Optum Rx app. Or, you can call customer service using the number on your member ID card.

#### What steps do I need to take to utilize Optum Rx Home Delivery?

You will first need to enroll in home delivery. This can be done online or by calling the phone number on the back of your ID card.

<sup>1</sup>To learn more about your coverage, please refer to your Benefit Highlights or your Summary of Benefits.

<sup>2</sup>Most medications are available at a 90-100 day supply through Home Delivery. For more information on your cost share, including \$0 copay, please refer to your Summary of Benefits. \$0 copay may be restricted to particular tiers, preferred medications, or home delivery prescriptions during the initial coverage phase and may not apply during the coverage gap or catastrophic stage. Optum Rx is an affiliate of UnitedHealthcare Insurance Company. You are not required to use Optum Rx home delivery for a 90-100 day supply of your maintenance medication.

## Ways to help save on your prescription drugs

You may save on the medications you take regularly

If you prefer the convenience of mail order, you could save time and money by receiving your maintenance medications from Optum® Home Delivery through Optum Rx. You'll get automatic refill reminders and access to licensed pharmacists if you have questions.

Get a 3-month<sup>1</sup> supply at retail pharmacies

In addition to Optum Home Delivery through Optum Rx pharmacy, most retail pharmacies offer 3-month supplies for some prescription drugs.

Ask your doctor about trial supplies

A trial supply allows you to fill a prescription for less than 30 days. This way, you can pay a reduced copay or coinsurance and make sure the medication works for you before getting a full month's supply.

Explore lower-cost options

Each covered drug in your drug list is assigned to a drug-cost tier. Generally, the lower the tier, the less you pay. If you're taking a higher-tier drug, you may want to ask your doctor if there's a lower-tier drug you could take instead.

Have an annual medication review

Take some time during your Annual Wellness Visit to make sure you are only taking the drugs you need.

Filling your prescriptions is convenient

UnitedHealthcare has thousands of national chain, regional and independent local retail pharmacies in our network.<sup>2</sup>

## The UnitedHealthcare Savings Promise

UnitedHealthcare is committed to keeping your prescription drug costs down. As a UnitedHealthcare member, you have our Savings Promise that you'll get the lowest price available. That low price will be the lower of your plan copay, the pharmacy's retail price or our contracted price with the pharmacy.

<sup>&</sup>lt;sup>1</sup>UnitedHealthcare may provide coverage beyond 3 months. Please refer to the Benefit Highlights or Summary of Benefits for more information.

<sup>&</sup>lt;sup>2</sup>Network size varies by market.

### What is IRMAA?

The Income-Related Monthly Adjustment Amount (IRMAA) is an amount Social Security determines you may need to pay in addition to your monthly plan premium if your modified adjusted gross income on your IRS tax return from two years ago is above a certain limit. This extra amount is paid directly to Social Security, not to your plan. Social Security will contact you if you have to pay IRMAA. Please note that this is an HRA eligible expense.

## What is a Medicare Part D Late Enrollment Penalty (LEP)?

If, at any time after you first become eligible for Medicare Part D, there's a period of at least 63 days in a row when you don't have Medicare Part D or other creditable prescription drug coverage, a penalty may apply. Creditable coverage is prescription drug coverage that is at least as good as or better than what Medicare requires. The LEP is an amount added to your monthly Medicare premium and billed to you separately by UnitedHealthcare.

Once you become a member, more information will be available in your Evidence of Coverage (EOC). Your Quick Start Guide will include details on how to access your EOC.

## Call Social Security to see if you qualify for Extra Help

If you have a limited income, you may be able to get Extra Help to pay for your prescription drug costs. If you qualify, Extra Help could pay up to 75% or more of your drug costs. Many people qualify and don't know it. There's no penalty for applying, and you can re-apply every year.

Call toll-free **1-800-772-1213**, TTY **1-800-325-0778**, 8 a.m.–7 p.m., Monday–Friday, or call your local office.

## Questions? We're here to help.

## Getting the health care coverage you may need

## Your care begins with your doctor

- With these plan options, you have the flexibility to see doctors in or out of the UnitedHealthcare network
- Even though it's not required, it's important to have a primary care provider
- Unlike most PPO plans, with these plan options, you pay the same share of cost in- and out-of-network as long as they participate in Medicare and have not been excluded or precluded from the Medicare Program
- With your IBM-sponsored Group Medicare Advantage plan options, you're connected to programs, resources, tools and people that can help you live a healthier life

## Finding a doctor is easy

If you need help finding a doctor or specialist, just give us a call. We can even help schedule that first appointment. When you call your doctor, tell them you have a Medicare Advantage PPO plan.

#### Why use a UnitedHealthcare network doctor?

A network doctor or health care provider is one who contracts with us to provide services to our members. We work closely with our network of doctors to give them access to resources and tools that can help them work with you to make better health care decisions. You pay your copay or coinsurance according to your plan benefits. Your provider will bill us for the rest.

An out-of-network provider does not have a contract with us. With the IBM-sponsored Group Medicare Advantage plan options, you can see any out-of-network provider as long as they accept the plan and have not opted out of or been excluded or precluded from the Medicare Program. You pay your copay or coinsurance according to your plan benefits. We will pay for the rest of the cost of your covered service(s), including any charges up to the limit set by Medicare. If your provider won't accept the program, we will contact them on your behalf.

If a provider refuses to directly bill us, they may ask that you pay the full allowable amount upfront. In that case, you can pay the doctor and then submit a claim to us. You'll be reimbursed for the cost of the claim minus your cost share.

Please note that 99.9% of UnitedHealthcare Medicare Advantage members continue to have services from their chosen providers covered. If you have any questions on whether your provider accepts the plan, or if they state that they do not accept the plan, please call the IBM Retiree Call Center, administered by UnitedHealthcare, at **1-877-852-0641**, TTY **711**, 8 a.m.–8 p.m. local time, 7 days a week.

To join this plan, you must be entitled to Medicare Part A, be enrolled in Medicare Part B, live in our service area as listed below, be a United States citizen or lawfully present in the United States, and meet the eligibility requirements of your former employer, union group or trust administrator (plan sponsor).

Our service area includes the 50 United States, the District of Columbia and all US territories.

## About providers and network pharmacies

UnitedHealthcare® Group Medicare Advantage has a network of doctors, hospitals, pharmacies and other providers. You can see any provider (network or out-of-network) at the same cost share, as long as they accept the plan and have not opted out of or been excluded or precluded from the Medicare Program. If you use pharmacies that are not in our network, the plan may not pay for those drugs, or you may pay more than you pay at a network pharmacy.

You can go to **retiree.uhc.com/ibm** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions.

	Tier 1: Pre	eferred generic
	Tier 2: Ge	neric

	Tier 4: No	n-preferred drug

		eve coverage requirements, such as prior authorization or step therapy. If your overage rules or limits, there will be code(s) in the list. The codes and what shown below
PA Prio	r authorization	The plan needs more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. If you don't get prior approval, it may not be covered.
QL Quai	ntity limits	The plan only covers a certain amount of this drug for 1 copay or over a certain number of days. Limits help make sure the drug is used safely. If your doctor prescribes more than the limit, you or your doctor can ask the plan to cover the additional quantity.
ST Step	therapy	You may need to try lower-cost drugs that treat the same condition before the plan will cover your drug. If you have tried other drugs or your doctor thinks they are not right for you, you or your doctor can ask the plan for coverage.
	icare Part B art D	Depending on how this drug is used, it may be covered by Medicare Part B or Part D. Your doctor may need to give the plan more information about how this drug will be used to make sure it's covered correctly.

HRM High-risk medication	This drug is known as a high-risk medication (HRM) for patients 65 years and older. This drug may cause side effects if taken on a regular basis. We suggest you talk with your doctor to see if an alternative drug is available to treat your condition.
LA Limited acc	The FDA only lets certain facilities or doctors give out this drug. It may require extra handling, doctor coordination or patient education.
MME Morphine milligram equivalent	Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.
7D 7-day limit	An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.
DL Dispensing	Dispensing limits apply to this drug. This drug is limited to a 1-month supply per prescription.

### **Additional Drug Coverage**

### **Bonus drug list**

Your employer group or plan sponsor offers a bonus drug list. The prescription drugs on this list are covered in addition to the drugs on the plan's Drug List (Formulary).

The drug tier for each prescription drug is shown on the list.

Although you pay the same copay or coinsurance for these drugs as shown in the Summary of Benefits and Evidence of Coverage, the amount you pay for these additional prescription drugs does not apply to your Medicare Part D out-of-pocket costs. Payments for these additional prescription drugs (made by you or the plan) are treated differently from payments made for other prescription drugs.

Coverage for the prescription drugs on the bonus drug list is in addition to your Part D drug coverage. Unlike your Part D drug coverage, you are unable to file a Medicare appeal or grievance for drugs on the bonus drug list. If you have questions, please call Customer Service using the information on the cover of this book.

If you get Extra Help from Medicare to pay for your prescription drugs, it will not apply to the drugs on this bonus drug list.

This is not a complete list of the prescription drugs available to you or the restrictions and limitations that may apply through the bonus drug list. If your drug has any coverage rules or limits, there will be code(s) in the "Coverage rules or limits on use" column of the chart. The codes and what they mean are shown below. If you have questions about drug coverage, please call Customer Service using the information on the cover of this book.

### **QL - Quantity limits**

The plan only covers a certain amount of this drug for one copay or over a certain number of days. These limits may be in place to ensure safe and effective use of the drug.

### MME - Morphine milligram equivalent

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than one opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

### 7D - 7-day limit

An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan, and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.

### **DL - Dispensing limit**

Dispensing limits apply to this drug. This drug is limited to a one-month supply per prescription.

### Questions? We're here to help.

### **Statements of Understanding**

### By enrolling in this plan, I agree to the following:

This is a Medicare Advantage plan contracted with the federal government. This is not a Medicare Supplement plan.

I need to keep my Medicare Part A and/or Part B, and continue to pay my Medicare Part B and, if applicable, Part A premiums, if they are not paid for by Medicaid or a third party. To be eligible for this plan, I must live in the plan's service area and be a United States citizen or be lawfully present in the U.S.

The service area includes the 50 United States, the District of Columbia and all U.S. territories.

I may not be covered while out of the country, except for limited coverage near the U.S. border. However, under this plan, when I am outside of the U.S. I am covered for emergency or urgently needed care.

- I can only have one Medicare Advantage or Prescription Drug plan at a time.
  - Enrolling in this plan will automatically disenroll me from any other Medicare health plan.
  - If I enroll in a different Medicare Advantage plan or Medicare Part D Prescription Drug Plan, I will be automatically disenrolled from this plan.
  - If I disenroll from this plan, I will be automatically transferred to Original Medicare.
  - Enrollment in this plan is for the entire plan year. I may leave this plan only at certain times of the year or under special conditions.
- My information will be released to Medicare and other plans, only as necessary, for treatment, payment and health care operations.

Medicare may also release my information for research and other purposes that follow all applicable Federal statutes and regulations.

For members of the Group Medicare Advantage plan.

I understand that when my coverage begins, I must get all of my medical and prescription drug benefits from the plan. Benefits and services provided by the plan and contained in the Evidence of Coverage (EOC) document will be covered. Neither Medicare nor the plan will pay for benefits or services that are not covered.
