How this Group Medicare Advantage plan works

Medicare has rules about what types of coverage you can add or combine with a group-sponsored Medicare Advantage plan.

One plan at a time

- You may be enrolled in only one Medicare Advantage plan and one Medicare Part D prescription drug plan at a time
- The plan you enroll in last is the plan that the Centers for Medicare & Medicaid Services (CMS) considers to be your final decision
- If you enroll in another Medicare Advantage plan or a standalone Medicare Part D prescription drug plan after your enrollment in this group-sponsored plan, you will be disenrolled from this plan
- Any eligible family members may also be disenrolled from this group-sponsored plan. This means that you and your family may not have hospital/medical or drug coverage through Lumen.

Once you receive your UnitedHealthcare member ID card, you can create your secure online account at: lumen.com/MAPD

You'll be able to view plan documents, find a provider, locate a pharmacy, and access lifestyle and learning articles, recipes, educational videos and more.

How this plan's prescription drug coverage works

This plan's Medicare Part D prescription drug coverage includes thousands of brand name and generic prescription drugs. Check your plan's drug list to see if your drugs are covered.

Here are answers to common questions:

What pharmacies can I use?

You can choose from thousands of national chain, regional and independent local retail pharmacies.

What is a drug-cost tier?

Drugs are divided into different cost levels, or tiers. In general, the lower the tier, the less you pay.

What will I pay for my prescription drugs?

What you pay will depend on the coverage your former employer or plan sponsor has arranged and on what drug-cost tier your prescription falls into. Your cost may also change during the year based on the total cost of the prescriptions you have filled.¹

Can I have more than one prescription drug plan?

No. You can only have one Medicare plan that includes prescription drug coverage at a time. If you enroll in another Medicare Part D prescription drug plan OR a Medicare Advantage plan that includes prescription drug coverage, you will be disenrolled from this plan.

Ways to help save on your prescription drugs

- ✓ **You may save on the medications you take regularly**
If you prefer the convenience of mail order, you could save time and money by receiving your maintenance medications from Optum® Home Delivery through Optum Rx. You'll get automatic refill reminders and access to licensed pharmacists if you have questions.
- ✓ **Get a 3-month supply at retail pharmacies**
In addition to Optum Home Delivery through Optum Rx pharmacy, most retail pharmacies offer 3-month supplies for some prescription drugs.
- ✓ **Ask your doctor about trial supplies**
A trial supply allows you to fill a prescription for less than 30 days. This way, you can pay a reduced copay or coinsurance and make sure the medication works for you before getting a full month's supply.
- ✓ **Explore lower-cost options**
Each covered drug in your drug list is assigned to a drug-cost tier. Generally, the lower the tier, the less you pay. If you're taking a higher-tier drug, you may want to ask your doctor if there's a lower-tier drug you could take instead.
- ✓ **Have an annual medication review**
Take some time during your Annual Wellness Visit to make sure you are only taking the drugs you need.
- ✓ **Filling your prescriptions is convenient**
UnitedHealthcare has thousands of national chain, regional and independent local retail pharmacies in our network.¹

The UnitedHealthcare Savings Promise

UnitedHealthcare is committed to keeping your prescription drug costs down. As a UnitedHealthcare member, you have our Savings Promise that you'll get the lowest price available. That low price may be your plan copay, the pharmacy's retail price or our contracted price with the pharmacy.

¹Network size varies by market.

What is IRMAA?

The Income-Related Monthly Adjustment Amount (IRMAA) is an amount Social Security determines you may need to pay in addition to your monthly plan premium if your modified adjusted gross income on your IRS tax return from two years ago is above a certain limit. This extra amount is paid directly to Social Security, not to your plan. Social Security will contact you if you have to pay IRMAA.

What is a Medicare Part D Late Enrollment Penalty (LEP)?

If, at any time after you first become eligible for Medicare Part D, there's a period of at least 63 days in a row when you don't have Medicare Part D or other creditable prescription drug coverage, a penalty may apply. Creditable coverage is prescription drug coverage that is at least as good as or better than what Medicare requires. The LEP is an amount added to your monthly Medicare premium and billed to you separately by UnitedHealthcare.

When you become a member, your former employer or plan sponsor will be asked to confirm that you have had continuous Medicare Part D coverage. If your former employer or plan sponsor asks for information about your prescription drug coverage history, please respond as quickly as possible to avoid an unnecessary penalty.

Once you become a member, more information will be available in your Evidence of Coverage (EOC). Your Quick Start Guide will include details on how to access your EOC.

Call Social Security to see if you qualify for Extra Help

If you have a limited income, you may be able to get Extra Help to pay for your prescription drug costs. If you qualify, Extra Help could pay up to 75% or more of your drug costs. Many people qualify and don't know it. There's no penalty for applying, and you can re-apply every year.

Getting the health care coverage you may need

Your care begins with your doctor

- With this plan, you have the flexibility to see doctors inside or outside the UnitedHealthcare network
- Even though it's not required, it's important to have a primary care provider
- Unlike most PPO plans, with this plan, you pay the same share of cost in and out of the network as long as they participate in Medicare and have not been excluded or precluded from the Medicare Program
- With your UnitedHealthcare Group Medicare Advantage plan, you're connected to programs, resources, tools and people that can help you live a healthier life

Finding a doctor is easy

If you need help finding a doctor or specialist, just give us a call. We can even help schedule that first appointment. When you call your doctor, tell them you have a Medicare Advantage PPO plan.

Why use a UnitedHealthcare network doctor?

A network doctor or health care provider is one who contracts with us to provide services to our members. We work closely with our network of doctors to give them access to resources and tools that can help them work with you to make better health care decisions. You pay your copay or coinsurance according to your plan benefits. Your provider will bill us for the rest.

An out-of-network provider does not have a contract with us. With the UnitedHealthcare Group Medicare Advantage (PPO) plan, you can see any out-of-network provider as long as they accept the plan and have not opted out of or been excluded or precluded from the Medicare Program. You pay your copay or coinsurance according to your plan benefits. We will pay for the rest of the cost of your covered service(s), including any charges up to the limit set by Medicare. If your provider won't accept the plan, we will contact them on your behalf.

If a provider refuses to directly bill us, they may ask that you pay the full allowable amount upfront. In that case, you can pay the doctor and then submit a claim to us. You'll be reimbursed for the cost of the claim minus your cost share.

Take advantage of UnitedHealthcare's additional support and programs

Annual Physical and Wellness Visit¹

An Annual Wellness Visit with your doctor and many preventive services at \$0 copay is one of the best ways to start your year off and stay on top of your health. Take control by scheduling your annual physical and wellness visit early in the year to give you the most time to take action. You and your doctor can work as a team to create a preventive care plan, review medications and talk about any health concerns. You may also be eligible to earn a reward* for completing and reporting your Annual Wellness Visit.

In-Home Preventive Care Visit from UnitedHealthcare® HouseCalls

With UnitedHealthcare® HouseCalls², you get a yearly in-home visit from one of our health care practitioners at no extra cost to you. A HouseCalls visit is designed to support, but not take the place of, your regular doctor's care.

The visit takes up to an hour and is tailored to your needs. It includes health screenings and a chance to:

- Review current medications
- Receive health education, prevention tips, care and resource assistance, if needed
- Get advice and ask questions on how to manage health conditions
- Receive referrals to other health services and more

At the end of the visit, our health care practitioner will leave you with a personalized checklist and send a summary to your regular doctor.

Comprehensive Dental

The UnitedHealthcare Dental Preferred Provider Organization (PPO) Plan gives you access to a large network of dentists, making it easier to locate a nearby provider. Plus, choosing an in-network dentist may help you save money.

Dental benefits include:

- 100% coverage for preventive care when you see an in-network dentist including exams, 2 cleanings in a 12-month period, x-rays and periodontal maintenance
- Coverage for Major (crowns, root canals) and Minor (fillings) services
- Freedom to see out-of-network providers*
- Large nationwide network of dental providers
- \$50 deductible, \$1,000 plan year maximum

*You may pay more when going out-of-network.

Drug List

Drug List

This is a partial alphabetical list of prescription drugs covered by the plan as of September 1, 2022. This list can change throughout the year. Call us or go online for the most complete, up-to-date information. Our phone number and website are listed on the back cover of this book.

- ☐ **Brand name** drugs are in **bold** type. Generic drugs are in plain type
- ☐ Covered drugs are placed in tiers. Each tier has a different cost:
 - Tier 1: Preferred generic
 - Tier 2: Generic
 - Tier 3: Preferred brand
 - Tier 4: Non-preferred drug
 - Tier 5: Specialty tier
- ☐ Each tier has a copay or coinsurance amount
- ☐ See the Summary of Benefits in this book to find out what you'll pay for these drugs
- ☐ Some drugs have coverage requirements, such as prior authorization or step therapy. If your drug has any coverage rules or limits, there will be code(s) in the list. The codes and what they mean are shown below

PA
Prior authorization

The plan needs more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. If you don't get prior approval, it may not be covered.

QL
Quantity limits

The plan only covers a certain amount of this drug for 1 copay or over a certain number of days. Limits help make sure the drug is used safely. If your doctor prescribes more than the limit, you or your doctor can ask the plan to cover the additional quantity.

ST
Step therapy

You may need to try lower-cost drugs that treat the same condition before the plan will cover your drug. If you have tried other drugs or your doctor thinks they are not right for you, you or your doctor can ask the plan for coverage.

B/D
Medicare Part B
or Part D

Depending on how this drug is used, it may be covered by Medicare Part B or Part D. Your doctor may need to give the plan more information about how this drug will be used to make sure it's covered correctly.

HRM High-risk medication	This drug is known as a high-risk medication (HRM) for patients 65 years and older. This drug may cause side effects if taken on a regular basis. We suggest you talk with your doctor to see if an alternative drug is available to treat your condition.
LA Limited access	The FDA only lets certain facilities or doctors give out this drug. It may require extra handling, doctor coordination or patient education.
MME Morphine milligram equivalent	Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.
7D 7-day limit	An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.
DL Dispensing limit	Dispensing limits apply to this drug. This drug is limited to a 1-month supply per prescription.

After you receive your member ID card, you can register online at the website listed below to get access to plan information.

Health assessment

In the first 90 days after your plan's effective date, we'll give you a call. Medicare requires us to call and ask you to complete a short health survey. You can also go to the website below and take the survey online.

Start using your plan on your effective date. Remember to use your UnitedHealthcare member ID card.

We're here for you

Statements of Understanding

By enrolling in this plan, I agree to the following:

- ✓ **This is a Medicare Advantage plan contracted with the federal government. This is not a Medicare Supplement plan.**

I need to keep my Medicare Part A and/or Part B, and continue to pay my Medicare Part B and, if applicable, Part A premiums, if they are not paid for by Medicaid or a third party. To be eligible for this plan, I must live in the plan's service area and be a United States citizen or be lawfully present in the U.S.

- ✓ **The service area includes the 50 United States, the District of Columbia and all U.S. territories.**

I may not be covered while out of the country, except for limited coverage near the U.S. border. However, under this plan, when I am outside of the U.S. I am covered for emergency or urgently needed care.

- ✓ **I can only have one Medicare Advantage or Prescription Drug plan at a time.**

- Enrolling in this plan will automatically disenroll me from any other Medicare health plan.
- If I enroll in a different Medicare Advantage plan or Medicare Part D Prescription Drug Plan, I will be automatically disenrolled from this plan.
- If I disenroll from this plan, I will be automatically transferred to Original Medicare.
- Enrollment in this plan is for the entire plan year. I may leave this plan only at certain times of the year or under special conditions.

- ✓ **My information will be released to Medicare and other plans, only as necessary, for treatment, payment and health care operations.**

Medicare may also release my information for research and other purposes that follow all applicable Federal statutes and regulations.

- ✓ **For members of the Group Medicare Advantage plan.**

I understand that when my coverage begins, I must get all of my medical and prescription drug benefits from the plan. Benefits and services provided by the plan and contained in the Evidence of Coverage (EOC) document will be covered. Neither Medicare nor the plan will pay for benefits or services that are not covered.
