Plan Details

UnitedHealthcare® MedicareRx for Groups (PDP)

Shell has selected a UnitedHealthcare® MedicareRx for Groups (PDP) plan for your prescription drug coverage. This is a plan designed just for Shell's eligible retirees and their dependents. This plan is also known as a Medicare Part D plan.

Original Medicare Part A (hospital coverage) and Part B (doctor and outpatient care) help pay for some of the costs, but they don't cover prescription drugs. Medicare Part D plans help with prescription drug costs. You can get Part D coverage through a private insurance company like UnitedHealthcare.

Make sure you are signed up for Medicare

You must be entitled to Medicare Part A and/or enrolled in Medicare Part B to enroll in this plan.

- If you're not sure if you are enrolled, check with Social Security
- Visit ssa.gov/locator or call **1-800-772-1213**, TTY **1-800-325-0778**, 8 a.m.–7 p.m., Monday–Friday, or call your local office
- If you are enrolled in Medicare Part B, you must continue to pay your Medicare Part B monthly premium to Social Security to keep your Medicare Part B coverage
- If you stop paying your Medicare Part B premium, you will be disenrolled from Medicare Part B and this could affect your medical coverage

How your UnitedHealthcare MedicareRx plan works

Here are Medicare's rules about what types of coverage you can have either as an addition to or combined with UnitedHealthcare MedicareRx prescription drug plan.

✓ One plan at a time

- You may be enrolled in only one Medicare Part D prescription drug plan at a time. This means you may have one Medicare Part D plan or one Medicare Advantage plan that includes prescription drug coverage, but not both
- The plan you enroll in last is the plan that the Centers for Medicare & Medicaid Services (CMS) considers to be your final decision
- If you enroll in another plan with prescription drug coverage after your enrollment in the UnitedHealthcare MedicareRx prescription drug plan, you will be disenrolled from this plan
- Any eligible family members may also be disenrolled from the UnitedHealthcare MedicareRx prescription drug plan, and you and your family may not have drug coverage through Shell.

✓ You must have employer group-sponsored coverage

Your UnitedHealthcare MedicareRx prescription drug plan includes only drug coverage. It does not include medical care coverage. Your medical care coverage continues through your Medicare Complementary plan, administered by UnitedHealthcare.

- If you want a Shell-sponsored Medicare Advantage plan instead, check your eligibility status and enrollment opportunity with the Shell Benefits Service Center at 1-800-30-SHELL (1-800-307-4355).
- If you enroll in an individual Medicare Advantage plan, you may be disenrolled from the UnitedHealthcare MedicareRx prescription drug plan

Remember: If you drop or are disenrolled from the UnitedHealthcare MedicareRx prescription drug coverage, you may not be able to re-enroll.

What is IRMAA?

The Income-Related Monthly Adjustment Amount (IRMAA) is an amount Social Security determines you may need to pay in addition to your monthly plan premium if your modified adjusted gross income on your IRS tax return from 2 years ago is above a certain limit. This extra amount is paid directly to Social Security, not to your plan. Social Security will contact you if you have to pay IRMAA.

What is a Medicare Part D Late Enrollment Penalty (LEP)?

An LEP is a late fee Medicare charges if you had **63 days** or more without prescription drug coverage. This can happen if:

- You didn't enroll in a Medicare Prescription Drug plan when you were first eligible.
- You didn't have a plan that met Medicare's minimum standards.

The LEP is an amount added to your monthly Medicare premium and billed to you separately by UnitedHealthcare.

When you become a member, your former employer or plan sponsor will be asked to confirm that you have had continuous Medicare Part D coverage. If your former employer or plan sponsor asks for information about your prescription drug coverage history, please respond as quickly as possible to avoid an unnecessary penalty.

Once you become a member, more information will be available in your Evidence of Coverage (EOC). Your Quick Start Guide will include details on how to access your EOC.

Call Social Security to see if you qualify for Extra Help

If you have a limited income, you may be able to get Extra Help to pay for your prescription drug costs. If you qualify, Extra Help could pay up to 75% or more of your drug costs. Many people qualify and don't know it. There's no penalty for applying and you can re-apply every year.

Call toll-free **1-800-772-1213**, TTY **1-800-325-0778**, 8 a.m.–7 p.m., Monday–Friday, or call your local office.

How your prescription drug coverage works

Your UnitedHealthcare MedicareRx prescription drug plan coverage includes thousands of brand name and generic prescription drugs. Check your plan's drug list to see if your drugs are covered.

Here are answers to common questions:

- ✓ **What pharmacies can I use?**
You can choose from thousands of national chain, regional and independent local retail pharmacies.
- ✓ **What is a drug-cost tier?**
Drugs are divided into different cost levels, or tiers. In general, the lower the tier, the less you pay.
- ✓ **What will I pay for my prescription drugs?**
What you pay will depend on the coverage your former employer or plan sponsor has arranged and on what drug-cost tier your prescription falls into. Your cost may also change during the year based on the total cost of the prescriptions you have filled.¹

The price you pay for a covered drug will depend on 2 factors:

1 The drug-cost tier for your drug

Each covered drug is assigned to a tier. Generally, the lower the tier, the less you pay.

Tier	Cost	Description
Tier 1	Low	Most generic drugs
Tier 2		Many common brand name drugs, called preferred brands and some higher-cost generic drugs
Tier 3		Non-preferred generic and non-preferred brand name drugs. In addition, Part D eligible compound medications are covered in Tier 3
Tier 4 (Specialty)		High

2 Your Medicare drug payment stages

Annual deductible – If your plan has a deductible, you pay the total cost of your drugs until you reach the deductible amount set by your plan. Then you move to the initial coverage stage. If you don't have a deductible, your coverage begins in the initial coverage stage.

Initial coverage	Coverage gap	Catastrophic coverage
<p>In this drug payment stage:</p> <ul style="list-style-type: none"> You pay a copay or coinsurance (percentage of a drug's total cost) and the plan pays the rest You stay in this stage until your total drug costs reach \$4,660–\$5,030 	<p>Your plan provides additional coverage through the gap.</p> <ul style="list-style-type: none"> You continue to pay the same copay or coinsurance as you did in the initial coverage stage You stay in this stage until your out-of-pocket costs reach \$7,400–\$8,000 	<p>After your out-of-pocket costs reach \$7,400–\$8,000:</p> <ul style="list-style-type: none"> You pay \$0 You stay in this stage for the rest of the plan year

Total drug costs – The amount you pay (or others pay on your behalf) and the plan pays for prescription drugs starting January 2024. This does not include premiums.

Out-of-pocket costs – The amount you pay (or others pay on your behalf), including the deductible, for prescription drugs starting January 2024. This does not include premiums.

Ways to help save on your prescription drugs

- ✓ **You may save on the medications you take regularly**
If you prefer the convenience of mail order, you could save time and money by receiving your maintenance medications through Optum® Home Delivery Pharmacy. You'll get automatic refill reminders and access to licensed pharmacists if you have questions.
- ✓ **Get a 3-month¹ supply at retail pharmacies**
In addition to Optum® Home Delivery Pharmacy, most retail pharmacies offer 3-month supplies for some prescription drugs.
- ✓ **Ask your doctor about trial supplies**
A trial supply allows you to fill a prescription for less than 30 days. This way, you can pay a reduced copay or coinsurance and make sure the medication works for you before getting a full month's supply.
- ✓ **Explore lower-cost options**
Each covered drug in your drug list is assigned to a drug-cost tier. Generally, the lower the tier, the less you pay. If you're taking a higher-tier drug, you may want to ask your doctor if there's a lower-tier drug you could take instead.
- ✓ **Have an annual medication review**
Make an appointment to have an annual medication review with your doctor to make sure you are only taking the drugs you need.

The UnitedHealthcare Savings Promise

UnitedHealthcare is committed to keeping your prescription drug costs down. As a UnitedHealthcare member, you have our Savings Promise that you'll get the lowest price available. That low price may be your plan copay, the pharmacy's retail price or our contracted price with the pharmacy.

¹Your former employer or plan sponsor may provide coverage beyond 3 months. Please refer to the Benefit Highlights or Summary of Benefits for more information.

Drug list

Drug List

This is a partial alphabetical list of prescription drugs covered by the plan as of September 1, 2023. This list can change throughout the year. Call us or go online for the most complete, up-to-date information. Our phone number and website are listed on the back cover of this book.

- ❑ **Brand name** drugs are in **bold** type. Generic drugs are in plain type.
- ❑ Covered drugs are placed in tiers. Each tier has a different cost:
 - Tier 1: Preferred Generic
 - Tier 2: Preferred Brand
 - Tier 3: Non-preferred Drug
 - Tier 4: Specialty Tier
- ❑ Each tier has a copay or coinsurance amount.
- ❑ See the Summary of Benefits in this book to find out what you'll pay for these drugs.
- ❑ Some drugs have coverage requirements, such as prior authorization or step therapy. If your drug has any coverage rules or limits, there will be code(s) in the list. The codes and what they mean are shown below.

PA
Prior authorization

The plan needs more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. If you don't get prior approval, it may not be covered.

QL
Quantity limits

The plan only covers a certain amount of this drug for 1 copay or over a certain number of days. Limits help make sure the drug is used safely. If your doctor prescribes more than the limit, you or your doctor can ask the plan to cover the additional quantity.

ST
Step therapy

You may need to try lower-cost drugs that treat the same condition before the plan will cover your drug. If you have tried other drugs or your doctor thinks they are not right for you, you or your doctor can ask the plan for coverage.

B/D
Medicare Part B
or Part D

Depending on how this drug is used, it may be covered by Medicare Part B or Part D. Your doctor may need to give the plan more information about how this drug will be used to make sure it's covered correctly.

HRM
High-risk
medication

This drug is known as a high-risk medication (HRM) for patients 65 years and older. This drug may cause side effects if taken on a regular basis. We suggest you talk with your doctor to see if an alternative drug is available to treat your condition.

LA Limited access	The FDA only lets certain facilities or doctors give out this drug. It may require extra handling, doctor coordination or patient education.
MME Morphine milligram equivalent	Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME) and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.
7D 7-day limit	An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.
DL Dispensing limit	Dispensing limits apply to this drug. This drug is limited to a 1-month supply per prescription.

Additional Drug Coverage

Bonus drug list

Your employer group or plan sponsor offers a bonus drug list. The prescription drugs on this list are covered in addition to the drugs on the plan's Drug List (Formulary).

The drug tier for each prescription drug is shown on the list.

Although you pay the same copay or coinsurance for these drugs as shown in the Summary of Benefits and Evidence of Coverage, the amount you pay for these additional prescription drugs **does not apply to your Medicare Part D out-of-pocket costs**. However, these costs will apply to your annual drug out-of-pocket maximum.

Coverage for the prescription drugs on the bonus drug list is in addition to your Part D drug coverage. Unlike your Part D drug coverage, you are unable to file a Medicare appeal or grievance for drugs on the bonus drug list. If you have questions, please call Customer Service using the information on the cover of this book.

If you get Extra Help from Medicare to pay for your prescription drugs, it will not apply to the drugs on this bonus drug list.

This is not a complete list of the prescription drugs available to you or the restrictions and limitations that may apply through the bonus drug list. If your drug has any coverage rules or limits, there will be code(s) in the "Coverage rules or limits on use" column of the chart. The codes and what they mean are shown below. If you have questions about drug coverage, please call Customer Service using the information on the cover of this book.

QL - Quantity limits

The plan only covers a certain amount of this drug for one copay or over a certain number of days. These limits may be in place to ensure safe and effective use of the drug.

MME - Morphine milligram equivalent

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than one opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

7D - 7-day limit

An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.

DL - Dispensing limit

Dispensing limits apply to this drug. This drug is limited to a one-month supply per prescription.
