## UnitedHealthcare® Group Medicare Advantage (PPO)

The Trust has chosen a UnitedHealthcare Medicare Advantage plan, as the new carrier for its members. The Trust worked with UnitedHealthcare to design a plan specifically for its members and tailored to your needs.

“Medicare Advantage” is also known as Medicare Part C. These plans have all the benefits of Medicare Part A (hospital coverage) and Medicare Part B (doctor and outpatient care) plus prescription drugs as well as extra programs that go beyond Original Medicare (Medicare Parts A and B).

### Make sure you know what parts of Medicare you have

You must be entitled to Medicare Part A and enrolled in Medicare Part B to enroll in this plan.

- If you're not sure if you are enrolled in Medicare Part B, check with Social Security
- Visit [www.ssa.gov/locator](http://www.ssa.gov/locator) or call **1-800-772-1213**, TTY **1-800-325-0778**, 8 a.m. – 7 p.m., Monday – Friday, or call your local office
- You must continue paying your Medicare Part B premium to be eligible for coverage under this plan
- If you stop paying your Medicare Part B premium, you may be disenrolled from this plan

## Medicare Advantage Coverage:

**Medicare Part A**  
Hospital

+

**Medicare Part B**  
Doctor and Outpatient

+

**Medicare Part D**  
Prescription Drugs

+

**Extra programs**  
Beyond Original Medicare

# How your Medicare Advantage plan works

Medicare has rules about what types of coverage you can add or combine with a group-sponsored Medicare Advantage plan.

## ✓ One plan at a time

- You may be enrolled in only one Medicare Advantage plan and one Medicare Part D prescription drug plan at a time
- The plan you enroll in last is the plan that Centers for Medicare & Medicaid Services (CMS) considers to be your final decision
- **If you enroll in another Medicare Advantage plan or a stand-alone Medicare Part D prescription drug plan after enrollment in this Trust-sponsored plan, you will be disenrolled from this plan and defaulted into the Traditional Care Network (TCN) plan**
- **Any eligible family members may also be disenrolled from the UnitedHealthcare Medicare Advantage plan and be defaulted into the TCN plan**

#### Can I continue to see my doctor/specialist?

Yes, you have access to our nationwide coverage. You can see any provider (in-network or out-of-network) at the same cost share as long as they accept the plan and have not opted out of or been excluded or precluded from the Medicare Program<sup>1</sup>.

#### What is my copay or coinsurance?

Copays and coinsurance vary by service<sup>2</sup>. Refer to the Summary of Benefits in this guide for more information.

#### Do I need to choose a primary care provider (PCP)?

No, but recommended.

#### Do I need a referral to see a specialist?

No.

#### Can I go to any hospital?

In-network, yes. Out-of-network, as long as they participate in Medicare and agree to treat you<sup>1</sup>.

#### Are emergency and urgently needed services covered?

Yes.

#### Do I have to pay the full cost for all doctor or hospital services?

You will pay your standard copay or coinsurance for the services you get<sup>2</sup>.

#### Is there a limit on how much I can spend on medical services each year?

#### Are there any situations when a doctor will balance bill me?

## View Your Plan Information Online

Once you receive your UnitedHealthcare member ID card, you can create your secure online account at: [retiree.uhc.com/UAWTrust](https://retiree.uhc.com/UAWTrust)

You'll be able to view plan documents, find a provider, locate a pharmacy and access lifestyle and learning articles, recipes, educational videos and more.

# How your prescription drug coverage works

Your Medicare Part D prescription drug coverage includes thousands of brand-name and generic prescription drugs. Check your plan's drug list to see if your drugs are covered.

## Here are answers to common questions:

### What pharmacies can I use?

You can choose from thousands of national chain, regional and independent local retail pharmacies. You will also have mail order available to you and it allows you to purchase up to a 90-day supply of your prescription drugs for the same copay as one-month supply at retail.

### What is a drug-cost tier?

In general, your prescriptions under this plan will be similar to your current benefit. Medications are assigned to one of three copay categories called tiers. The copay amount for each prescription order or refill is based on whether the drug is generic or brand name and how the drug is dispensed (retail pharmacy or mail order). Copay amounts are established annually and announced in the Benefit Highlights sent out by the Trust every fall.

### To find more information on prescription drugs

What you pay for prescription drugs is defined in the Summary of benefits, under prescription drugs. Your cost may also change during the year based on the total cost of the prescriptions you have filled.<sup>1</sup>

### Can I have more than one prescription drug plan?

**No. You can only have one Medicare plan that includes prescription drug coverage at a time. If you enroll in another Medicare Part D prescription drug plan OR a Medicare Advantage plan that includes prescription drug coverage, you will be disenrolled from this plan.**

### Will I have a separate prescription drug ID card?

No. You will have one UnitedHealthcare ID card that can be used for both medical and prescription drugs.

## Ways to help save on your prescription drugs

-  **You may save on the medications you take regularly**  
If you prefer the convenience of mail order, you could save time and money by receiving your maintenance medications from Optum® Home Delivery through OptumRx®. You will pay the same amount for a 3-month mail order supply as you would for a one-month order at a retail pharmacy. You'll get automatic refill reminders and access to licensed pharmacists if you have questions.
  
-  **Filling your prescriptions is convenient**  
UnitedHealthcare has thousands of national chain, regional and independent local retail pharmacies in our network.<sup>2</sup>
  
-  **Explore lower-cost options**  
Each covered drug in your drug list is assigned to a drug-cost tier. The lower the tier, the less you pay. If you're taking a higher-tier drug, you may want to ask your doctor if there's a lower-tier drug you could take instead.
  
-  **Have an annual medication review**  
Take some time during your Annual Wellness Visit to make sure you are only taking the drugs you need.

### The UnitedHealthcare Savings Promise

UnitedHealthcare is committed to keeping your prescription drug costs down. As a UnitedHealthcare member, you have our Savings Promise that you'll pay the lowest price available. That low price may be your plan copay, the pharmacy's retail price or our contracted price with the pharmacy.

<sup>2</sup>2022 Internal Report Data

### What is IRMAA?

The Income-Related Monthly Adjustment Amount (IRMAA) is an amount Social Security determines you may need to pay in addition to your monthly plan premium if your modified adjusted gross income on your IRS tax return from two years ago is above a certain limit. This extra amount is paid directly to Social Security, not to your plan. Social Security will contact you if you have to pay IRMAA.

### What is a Medicare Part D Late Enrollment Penalty (LEP)?

If, at any time after you first become eligible for Medicare Part D, there's a period of at least 63 days in a row when you don't have Medicare Part D or other creditable prescription drug coverage, a penalty may apply. Creditable coverage is prescription drug coverage that is at least as good as or better than what Medicare requires. The LEP is an amount that the Trust will pay on your behalf to UnitedHealthcare.

Once you become a member, more information will be available in your Evidence of Coverage (EOC). Your Quick Start Guide will include details on how to access your EOC.

### Call Social Security to see if you qualify for Extra Help

If you have a limited income, you may be able to get Extra Help to pay for your prescription drug costs. If you qualify, Extra Help could pay up to 75% or more of your drug costs. There's no penalty for applying, and you can re-apply every year.

## Getting the health care coverage you may need

### Your care begins with your doctor

- With this plan, you have the flexibility to see doctors inside or outside the UnitedHealthcare network
- Even though it's not required, it's important to have a primary care provider
- Unlike most PPO plans, with this plan, you pay the same share of cost in and out of the network as long as they participate in Medicare and have not been excluded or precluded from the Medicare Program
- With your UnitedHealthcare Medicare Advantage plan, you're connected to programs, resources, tools and people that can help you live a healthier life

### Finding a doctor is easy

If you need help finding a doctor or specialist, just give us a call at **1-844-320-5021**. We can even help schedule that first appointment. When you call your doctor, tell them you have a Medicare Advantage PPO plan.

### Why use a UnitedHealthcare network doctor?

**A network doctor or health care provider** is one who contracts with us to provide services to our members. We work closely with our network of doctors to give them access to resources and tools that can help them work with you to make better health care decisions. You pay your copay or coinsurance according to your plan benefits. Your provider will bill us for the rest.

**An out-of-network provider** does not have a contract with us. With the UnitedHealthcare Group Medicare Advantage (PPO) plan, you can see any out-of-network provider as long as they agree to treat you and have not opted out of or been excluded or precluded from the Medicare Program. We will pay for the rest of the cost of your covered service(s), including any charges up to the limit set by Medicare. If your provider won't accept the plan, we will contact them on your behalf.

**If a provider refuses to directly bill us**, they may ask that you pay the full allowable amount upfront. In that case, you can pay the doctor and then submit a claim to us. You'll be reimbursed for the cost of the claim minus your cost share.

# Drug List

# Drug List

This is a partial alphabetical list of prescription drugs covered by the plan as of September 1, 2022. This list can change throughout the year. This is not a complete list of the drugs we cover. For a complete list, please call Customer Service toll-free at **(844) 320-5021** (TTY: **711**), 8 a.m. – 8 p.m. local time, Monday – Friday.

- Brand name** drugs are in **bold** type. Generic drugs are in plain type
- Covered drugs are placed in tiers. Each tier has a different cost:
  - Tier 1: Preferred generic
  - Tier 2: Preferred brand
  - Tier 3: Non-preferred drug
- Each tier has a copay amount
- See the Summary of Benefits in this book to find out what you'll pay for these drugs
- Some drugs have coverage requirements, such as prior authorization or step therapy. If your drug has any coverage rules or limits, there will be code(s) in the list. The codes and what they mean are shown below

---

**PA**  
**Prior authorization**

The plan needs more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. If you don't get prior approval, it may not be covered.

---

**QL**  
**Quantity limits**

The plan only covers a certain amount of this drug for 1 copay or over a certain number of days. Limits help make sure the drug is used safely. If your doctor prescribes more than the limit, you or your doctor can ask the plan to cover the additional quantity.

---

**ST**  
**Step therapy**

You may need to try lower-cost drugs that treat the same condition before the plan will cover your drug. If you have tried other drugs or your doctor thinks they are not right for you, you or your doctor can ask the plan for coverage.

---

**B/D**  
**Medicare Part B**  
**or Part D**

Depending on how this drug is used, it may be covered by Medicare Part B or Part D. Your doctor may need to give the plan more information about how this drug will be used to make sure it's covered correctly.

---

<b>HRM High-risk medication</b>	This drug is known as a high-risk medication (HRM) for patients 65 years and older. This drug may cause side effects if taken on a regular basis. We suggest you talk with your doctor to see if an alternative drug is available to treat your condition.
<b>LA Limited access</b>	The FDA only lets certain facilities or doctors give out this drug. It may require extra handling, doctor coordination or patient education.
<b>MME Morphine milligram equivalent</b>	Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.
<b>7D 7-day limit</b>	An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.
<b>DL Dispensing limit</b>	Dispensing limits apply to this drug. This drug is limited to a 1-month supply per prescription.
<b>SP Specialty drugs</b>	Most specialty drugs are limited to a 31-day supply through retail and mail.

# Additional Drug Coverage

## Additional prescription drug coverage

Your plan includes extra coverage for certain supplies as shown below. These supplies are either not generally covered under Medicare Part D or are covered at a different cost level than the one shown on your plan's Drug List (Formulary).

This is not a complete list of supplies covered by our plan. For a complete list, please call Customer Service using the information on the cover of this book.

## Lower-cost Medicare supplies

Your plan covers some of your Medicare supplies at a lower copay than in your Drug List (Formulary).

These supplies are part of your Medicare prescription drug coverage.<sup>1</sup>

<b>\$0 copay</b>
Insulin Syringes
Insulin Pen Needles

<sup>1</sup>Information about the appeals and grievance process for these supplies can be found in your Evidence of Coverage.

## **Bonus drug list**

Your employer group or plan sponsor offers a bonus drug list. The prescription drugs on this list are covered in addition to the drugs on the plan's Drug List (Formulary).

The drug tier for each prescription drug is shown on the list.

Although you pay the same copay for these drugs as shown in the Summary of Benefits and Evidence of Coverage, the amount you pay for these additional prescription drugs **does not apply to your Medicare Part D out-of-pocket costs**. However, these costs will apply to your annual drug out-of-pocket maximum.

Coverage for the prescription drugs on the bonus drug list is in addition to your Part D drug coverage. Unlike your Part D drug coverage, you are unable to file a Medicare appeal or grievance for drugs on the bonus drug list. If you have questions, please call Customer Service using the information on the cover of this book.

If you get Extra Help from Medicare to pay for your prescription drugs, it will not apply to the drugs on this bonus drug list.

This is not a complete list of the prescription drugs available to you or the restrictions and limitations that may apply through the bonus drug list. If your drug has any coverage rules or limits, there will be code(s) in the "Coverage rules or limits on use" column of the chart. The codes and what they mean are shown below. If you have questions about drug coverage, please call Customer Service using the information on the cover of this book.

### **QL - Quantity limits**

The plan only covers a certain amount of this drug for one copay or over a certain number of days. These limits may be in place to ensure safe and effective use of the drug.

### **MME - Morphine milligram equivalent**

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than one opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

### **7D - 7-day limit**

An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan, and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.

### **DL - Dispensing limit**

Dispensing limits apply to this drug. This drug is limited to a one-month supply per prescription.

# Statements of Understanding

**By enrolling in this plan, I agree to the following:**

- ✓ **This is a Medicare Advantage plan and has a contract with the federal government. This is not a Medicare Supplement plan.**

I need to keep my Medicare Part A and/or Part B, and continue to pay my Medicare Part B and, if applicable, Part A premiums, if they are not paid for by Medicaid or a third party. To be eligible for this plan, I must live in the plan's service area and be a United States citizen or be lawfully present in the U.S.

- ✓ **The service area includes the 50 United States, the District of Columbia and all U.S. territories.**

I may not be covered while out of the country, except for limited coverage near the U.S. border. However, under this plan, when I am outside of the U.S. I am covered for emergency or urgently needed care.

- ✓ **I can only have one Medicare Advantage or Prescription Drug plan at a time.**

- Enrolling in this plan will automatically disenroll me from any other Medicare health plan.
- If I enroll in a different Medicare Advantage plan or Medicare Part D Prescription Drug Plan, I will be automatically disenrolled from this plan.
- If I disenroll from this plan, I will be automatically transferred to Original Medicare.
- You may disenroll from this plan at any time if you are not satisfied. To disenroll from this plan or enroll in a different Trust sponsored plan, you must call Retiree Health Care Connect (RHCC) at 866-637-7555.

- ✓ **My information will be released to Medicare and other plans, only as necessary, for treatment, payment and health care operations.**

Medicare may also release my information for research and other purposes that follow all applicable Federal statutes and regulations.

- ✓ **For members of the Group Medicare Advantage plan.**

I understand that when my coverage begins, I must get all of my medical and prescription drug benefits from the plan. Benefits and services provided by the plan and contained in the Evidence of Coverage (EOC) document will be covered. Neither Medicare nor the plan will pay for benefits or services that are not covered.
