

Your plan has a list of covered drugs, also known as a Formulary. We call it a "Drug List," but it is more than just a list of drugs. You can also find information that can help you:

- Manage your drug costs
- Find other drug options
- Learn if there are any requirements or restrictions on the drug

You can find the Drug List in your plan guide or you can access your Drug List anytime online. No longer have your Drug List? No problem! You can request a new one by calling Customer Service toll-free at the number below. You will also find information in this brochure about how you can access your Drug List anytime online.

It's important to know that the Drug List is only a partial list of the drugs covered by your plan. Your plan covers thousands of Medicare Part D prescription drugs, so to keep it easier to use, we only include the most commonly prescribed drugs in the Drug List. If you do not see your drug on the Drug List, you can call Customer Service or use the online drug look up tool to see if your drug is covered.

Using online tools to find your Drug List and more

For convenient access 24/7, you can go online to view your Drug List and other helpful information about your drug coverage.

- 1. Go to **UAWTrustPDP.com**.
- 2. Choose if you are a Medicare member or not.
- 3. Go to Pharmacies and prescriptions.
- 4. Under Prescription drug lookup, select see if my medication is covered, then enter drug name.

This is a comprehensive search tool to find the drugs covered by your plan. You will need the name of the drug, the dosage and frequency to use this tool.

In addition, you can find a list of Plan Materials on the Plan Documents and Resources page that includes Drug Lists and other Plan Resources you may find helpful.
