More from your health plan

Your UC Medicare Choice plan is a Medicare Advantage plan, also known as Medicare Part C. This plan has all the benefits of Medicare Part A (hospital coverage) and Medicare Part B (doctor and outpatient care) plus extra programs that go beyond Original Medicare (Medicare Parts A and B).

You'll enjoy:

- **You pay a standard copay or coinsurance, or $0 in some cases,** to see a provider in or out-of-network
- **Access to a large network** of doctors, hospitals, and pharmacies equipped with tools to support your health
- **Prescription drug coverage** — use network pharmacies for the lowest drug cost
- **Worldwide coverage** for emergencies and urgent care

How the plan works:

- Select a primary care provider (PCP) to oversee and help manage your care. The plan doesn't require you to have a PCP, but using a PCP is very beneficial for your long-term health and well-being.
- Get care from providers in or out-of-network as long as they accept Medicare and the plan.
- You don't need a referral to see a specialist or other provider.
- This plan has separate maximum annual out-of-pocket amounts for medical and prescription drugs.
- Review your Summary of Benefits to see what's covered.

More ways to learn about your plan

It's important that you understand your plan and what benefits are covered. You can find the Drug List, Provider and Pharmacy directories and more at **retiree.uhc.com/uc**.

Review the online Drug List (Formulary) to see what prescription drugs are covered
And what drug tier they are in. Generally, the lower the drug tier, the less you'll pay.

Review the online Provider Directory to see if your providers are in the network
It's okay if they're not. This plan allows you to see out-of-network providers at the same cost share as long as they accept Medicare and the plan.

Review the online Pharmacy Directory to see what pharmacies are in our network
If your pharmacy is not in the network, you will need to select a new network pharmacy to pay your plan's lowest cost for prescription drugs.

Review the Summary of Benefits in this guide to see how much you'll pay for medical services and prescription drugs
You can also review the Summary of Benefits online.

If you're not sure if you are enrolled in Medicare Part B, check with Social Security at ssa.gov/locator or call 1-800-772-1213, TTY 1-800-325-0778, 8 a.m.–7 p.m., Monday–Friday, or call your local office.

You may be disenrolled from this plan if you stop paying your Medicare Part B premium. You will be automatically disenrolled from this plan if you enroll in another Medicare Advantage plan or Medicare Part D prescription drug plan.

You're eligible to enroll in this plan if you:

Are entitled to Medicare Part A and enrolled in Medicare Part B.

Continue to pay your Part B premium (unless it's paid for you).

Remember: If you drop or are disenrolled from your group-sponsored retiree coverage, you may not be able to re-enroll. Limitations and restrictions vary by former employer or plan sponsor.

Initial coverage	In this stage, you'll pay your plan copays or coinsurance. The plan pays the rest. Once you, and others on your behalf, have paid a combined total of $2,400, which includes the amount you paid towards your deductible, you move to the Catastrophic Coverage stage.	
Tier drug coverage	**Retail Cost-Sharing†**	**Mail Order Cost-Sharing†**

Please see your Additional Drug Coverage list for more information.	

˜ Subject to Medicare guidance, coinsurance may not apply to Part D insulin products. You will pay a maximum of $35 for a 1-month supply of each Part D insulin product covered by our plan even if you haven't paid your Part D deductible. Most adult Part D vaccines are covered at no cost to you.

You can also view the Certificate of Coverage at retiree.uhc.com/uc or call Customer Service to have a hard copy sent to you.

Drugs with coverage rules or limits are noted in the chart and described below.

QL - Quantity limits
The plan only covers a certain amount of this drug for one copay or over a certain number of days. These limits can help ensure safe and effective use of the drug.

MME - Morphine Milligram Equivalent
Additional quantity limits may apply to all opioid drugs used to treat pain. This additional limit is called a cumulative Morphine Milligram Equivalent (MME). It is designed to monitor safe dosing levels of opioids for people who may be taking more than one opioid drug for pain management. If your doctor or prescriber prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor or prescriber can ask the plan to cover the additional quantity.

7D - 7-day limit
An opioid drug used to treat pain may be limited to a 7-day supply if you don't have a recent history of using opioids. This limit helps minimize long-term opioid use. If you are new to the plan and have a recent history of using opioids, the pharmacy may override the limit when appropriate. Drugs with coverage rules or limits are noted in the chart and described below.

DL - Dispensing limit

Dispensing limits apply to this drug. This drug is limited to a one-month supply per prescription.

- **I can only have one Medicare Advantage or Prescription Drug Plan at a time.**
  - Enrolling in this plan will automatically disenroll me from any other Medicare health plan.
  - If I enroll in a different Medicare Advantage Plan or Medicare Part D Prescription Drug Plan, I will be automatically disenrolled from this plan.

  Medicare may also release my information for research and other purposes that follow all applicable federal statutes and regulations.
